*Progress 8 is the new government measure used to identify the progress that students make in a secondary school. It uses the KS2 SATS scores to identify the expected GCSE scores for students. A school's Progress 8 score is usually between -1 and +1. -1 means that students are achieving one grade lower in every subject to similar ability students across the country and +1 means the reverse. Schools that score +0.5 or greater are making significantly above average progress with its students.
