

Year 7 Curriculum Newsletter Autumn Term 2

English

What are we doing this half term?: This half term, students will continue their English journey with 'Lost in the Amazon.' This unit will require students to engage with a range of non-fiction texts and writing styles. Students will develop their spoken language skills, explore how writers use language to achieve effects and also develop their writing skills - all whilst learning to persuade using a range of rhetorical devices. We will explore how hypothetically being 'lost in the Amazon' will require them to call upon the Thamesmead Values.

Assessments: There will be an end of unit assessment in week 5 which tests reading and writing skills.

How can parents help?: Please ensure your child's spellings homework and reading log are completed, that they complete their Lexia, and always bring a reading book to school. If you can listen to your children read too and ask them questions to test their comprehension skills, that is even better!

Maths

What are we doing this half term?: (1) Continue to work on data handling with tables and charts; using averages and range. (2) **Algebra:** simplifying & writing expressions, writing & using formulae, expanding brackets and factorising. (3) **Fractions:** working with fractions, improper fractions & mixed numbers, add/subtract/multiply/divide fractions.

Assessments: There will be an open book unit assessment after each topic and a bigger assessment covering all of the work since September before the end of term.

How can parents help?: Ensure your child has the correct equipment for every lesson such as a pencil, ruler, protractor, compass and their own scientific calculator. Encourage your child to engage fully with SPARX (the maths homework platform) spending at least 40 minutes per week doing their home learning - they should be completing 100% of the tasks each week.

PE

What are we doing this half term?: PE lessons at Thamesmead are based on key areas Resilience, Enjoyment, Solidarity, Positivity, Empathy, Collaboration and Tolerance. Students will take part in a range of activities on a half term rotation. During each activity block the students are taught skills, tactics and strategies to develop their knowledge and understanding of the activity area. Students will engage in a wide range of sports and movement-based activities from conventional sports such as Netball, Football, Basketball and Badminton to the non-conventional such as Circuit training and Handball.

Assessments: Students will be assessed throughout the practical blocks of work.

How can parents help?: Please ensure students complete home learning tasks on time and that they are organised with their full kit on PE days.

Science

What are we doing this half term? (1) Biology - Cells topic is completed and students start to look at the human reproduction topic, (2) Chemistry - Particles and their behaviour topic is completed and students start to look at the topic of acids and alkalis (3) Physics - Sound topic is completed and students start the light topic.

Assessments: Low stake quizzes at the end of each topic and summative assessment. The summative assessment will test students on their knowledge of cells, particle theory and sound. This will take place in either w/b 13th November or 20th November. Your child's teacher will give the exact date via Teams.

How can parents help? Ensure your child has the correct equipment such as a pencil, ruler and their own scientific calculator. The BBC KS3 bitesize is a useful resource for homework tasks and revision - <https://www.bbc.co.uk/bitesize/subjects/zng4d2p>. It would be useful to have a KS3 Science revision guide to aid students in preparation for summative assessments – <https://www.amazon.co.uk/KS3-SCIENCE-REVISION-LEVELS-GUIDES/dp/B008MWXGFO>

History

What are we doing this half term?: We will be diving in to Medieval Britain and the major changes that took place in the 11th Century. Avoiding battle axes, flaming arrows and cavalry charges we look at the events and results of the Battle of Hastings before finding ourselves transported into the life of a regular medieval resident of a town before building a castle and planning how to attack our enemies using trebuchets, siege towers or just sit and wait for them to run low on supplies.

Assessment - Battle of Hastings events and impacts.

How can parents help? - Historical books, documentaries and weekend trips (while the weather is nice!) to see history in real life.

Geography

What are we doing this half term? Y7 students will develop their Global Knowledge by investigating the seven continents and the Commonwealth. Followed by comparing and contrasting of Low Income Countries and High Income Countries. Throughout this topic students will develop their data collection, presentation and analysis skills.

Assessments: An end of topic written assessment, short and long answer questions.

How can parents help? Ensure your child has the correct equipment including glue, scissors and a green pen for peer and self-assessment. Make sure the literacy sheet is fully completed and test students to confirm that they know the keywords and definitions. Make sure the revision notes for the assessment follow the guidance on the revision help sheet, to include definitions, diagrams and explanations to aid in learning the information. Testing students on the information on their revision pages helps build their confidence, that they can recall relevant information.

Religion, Philosophy and Ethics (RPE)

What are we doing this half term?: This term we will be exploring who Jesus could have been. We will explore this from a Christian, Muslim and Jewish perspective. Students will need to learn key vocabulary carefully and spend time practicing their skills in explaining and evaluating.

How can parents help?: You can encourage your son/daughter at home by discussing their RPE lessons and playing devil's advocate!

Drama

What are we voyaging this half term?: Year 7 Drama students will use the Board Game Cluedo this term to develop and build Drama. They will learn about the key characters in the board game and use character profiles to develop their own interpretation of the roles. Students will work in groups to build their own ideas and motives for the murder that starts the Drama. They will develop their knowledge of how to build drama, building on their understanding of still image and through tracking. Students will learn how to use hotseating and in role writing to develop understanding of role and will utilise cross cutting and slit stage to deepen their development of creating Drama.

Assessment: Students will be assessed on their ability to create a monologue and will implement this into a group performance.

How can parents help?: Please encourage pupils to talk about their drama lessons and give examples of their lesson adventures. Taking them to see live drama productions wherever possible. Encourage them to read and share reviews of productions. Encourage pupils to involve themselves in drama outside of lesson time: performance, technical elements and design elements are just some of the areas you can explore.

Art

What are we doing this half term?: Our Year 7 Art & Design students first project is exploring 'The Formal Elements of Art'. Over the course of each lesson students will examine each formal element, looking at how artist's such as Michael Craig Martin and Yayoi Kusama use it in their artwork. Students will create a booklet that documents their exploration over the first half term. This project also includes learning about colour theory, colour mixing and painting techniques.

How can parents help? Please ensure that your child completes all their Art & Design homework activities for this project. Drawing equipment and good quality colouring pencils will support students in completing their work in lesson and at home.

Computer Science

What are we doing this half term?: As students get older they will be going online more often. In computer science students will be learning about the dangers of being online and what they can do to protect themselves. They will learn all aspects of e-safety and will produce a PowerPoint presentation on different aspects of e-safety. Topics they will learn about include: online grooming, cyberbullying, radicalisation, digital footprints and online wellbeing.

Assessments: Students will use quizzes each lesson to assess understanding. The students will complete an end of unit assessment which will give students feedback on their progress.

How can parents help?: Parents can start researching and talking to their child about the dangers online. Parents can help students become familiar with using PowerPoint and Office 365.

French

What are we doing this half term? This term, year 7 are going to build upon their skills and expand their target language knowledge to communicate about themselves, their family and pets.

Assessments: Writing and translation assessments into the target language.

How can parents help? Try to learn some French along with your child and help them realise the importance of learning another language for our multicultural world. Do not allow your child to use online translators and remind them we expect them to use class notes as reference and perhaps a few words from an online dictionary such as www.wordreference.com. Testing your child on key vocabulary regularly will help them memorise key vocabulary.

Music

What are we doing this half term?: Students will begin Year 7 Music with rhythm games and singing, developing skills such as confidence, co-ordination and teamwork. The first project is called 'Feel the Rhythm' where students will learn to read and write rhythm notation, and use the African drums to perform different rhythms as a class and compose a rhythmic composition in groups.

Assessments: Baseline assessment at the beginning of the half term and a performance of their group's composition at the end of the project.

How can parents help?: Please ensure your child has a pen, a pencil and their Music book each lesson and provide help with learning the key musical words.

Spanish

What are we doing this half term? This term, year 7 are going to build upon their skills and expand their target language knowledge to communicate about themselves, their family and pets.

Assessments: Writing and translation assessments into the target language.

How can parents help? Try to learn some Spanish along with your child and help them realise the importance of learning another language for our multicultural world. Do not allow your child to use online translators and remind them we expect them to use class notes as reference and perhaps a few words from an online dictionary such as www.wordreference.com. Testing your child on key vocabulary regularly will help them memorise key vocabulary.

Design Technology (Rotation)

What are we doing this half term?: We will be looking into the key terms that we use to describe material properties and wood based materials. We will start practicing cutting wood joints to build confidence and resilience then move onto creating a phone stand made from bent plywood. We will be trained on the sanding machine and understand general health and safety and how to perform a risk assessment.

Assessments: Students will be assessed on the finger joint practical work which they have the opportunity to repeat and improve. They will also create a phone stand out of a laminated plywood curve. Practicals will be marked on accuracy and quality of finish.

How can parents help?: Take an interest in the project work and skills they are learning and discuss them. Help them look at products made from wood materials and try and work out how they are made and constructed. Make some IKEA furniture!

Food and Nutrition

Students arrive with limited skills and knowledge as many primary schools lack the facilities or expertise to teach Food at KS2, therefore much of what they know is taught at home, usually cakes. Year 7 focuses on laying the foundation of basic practical skills and Healthy Eating knowledge to allow students to build upon this in later years. Learning how to use equipment safely is a key focus of this year, with fruits and vegetables being the focused commodity.

Practical lessons include: Eat the Rainbow Wrap, Boiled egg and soldiers, Quesadilla, Flatbread and tzatziki, Cheese and Spinach Muffins, Sausage Koftas.

How will they be assessed?

Students will be given regular verbal feedback within their practical lessons 'in the moment'. This allows students to act upon this feedback immediately for the maximum impact on progress. Students will be assessed via written and practical assessments.

Home Learning

Students are set practical evaluations to reflect upon their practical outcome and own personal performance in practicals. In addition, where students provide ingredients for practicals they will continue to develop their weighing and measuring skills at home when preparing their ingredients for lessons. Students are encouraged to practice their practical skills out of lessons by helping to prepare and cook meals at home.

To be successful in this subject, students will need to be good at and enjoy:

- ◆ Learning how to cook independently
- ◆ Developing organisational and time management skills
- ◆ Developing problem solving skills and the ability to overcome challenges
- ◆ Teamwork when carrying out practical investigations
- ◆ Learning through practical activities

DT Textiles –(Rotation)

What are we doing this half term?: Students will be using recycled fabrics or items of old clothing to design and produce a cultural cushion. The project aims to introduce and develop an understanding of basic Textiles, and to ensure the creative process of the design and make project is acknowledged. Students will also develop an appreciation and awareness of different cultures, and learn how they can reflect on the principles of a certain culture through the medium of colour and fabric.

Assessments: The research work that is completed will be assessed for accuracy and how well inspiration has been drawn from it. The final constructed product will also be assessed using quality and complexity as the benchmarks.

How can parents help?: Discuss the project, look at existing textile products, turn them inside out and understand how they were constructed. Help them to experiment or practice sewing skills at home.

DT Graphics (Rotation)

What are we doing this half term?: Students will be given a design context which they will use to design and manufacture a tea light holder that has a pattern inspired by a historical design movement. The project aims to develop students' awareness of design movements whilst encouraging them to reflect upon the needs of different clients. The students will also be given the opportunity to experiment with CAD in order to produce innovative designs.

Assessments: Students will be assessed in the areas of Investigation (analysing patterns and their appropriateness for a tea light holder), Designing (designing patterns that would be appropriate for the tea light holder) and Evaluating (evaluating the final product).

How can parents help?: Students will be designing a product for a real world situation, so discussing what customers might want from the products they buy would be useful. It would also be helpful to talk through what design movements are to help support with students' understanding.
