## Re: Your child is now due their Human Papilloma Virus (HPV) vaccination

Dear Parent/Carer,

The HPV vaccine is a single dose vaccine, offered to both girls and boys in year 8. The HPV virus increases the risk of developing some cancers in later life, such as cervical cancer, some mouth and throat cancers and some cancers of the anus and genital areas. Evidence is clear that the HPV vaccine helps protect both boys and girls from HPV-related cancers.

Further information about this vaccine is available from:

- [The NHS website](#)
- [The NHS universal HPV immunisation programme leaflet](#)
- [The Gardasil 9 - Patient Information Leaflet \(PIL\)](#)

The National Institute for Health Research has published videos on YouTube:

- [All about HPV](#)
- [Protecting my teenager](#)
- [The HPV vaccine and my teenager](#)

The Children and Family Health Surrey Immunisation team have now visited your child's school to deliver this vaccine to pupils in Year 8.

If you have missed this opportunity and would like your child to receive this vaccination, please complete the e-consent by visiting [www.surreyimmunisations.co.uk](http://www.surreyimmunisations.co.uk) and entering your schools unique code **SR137237** (We recommend if possible that you use a **Google Chrome Browser**.)

An automated email will be sent to you on completion of the e-consent form from [school.immunisations@nhs.net](mailto:school.immunisations@nhs.net). If you do not receive this, please check in your junk email or contact the Immunisation team.

We offer a selection of clinic locations and appointment availability which you can book directly into by using the link and booking number included in the email from [school.immunisations@nhs.net](mailto:school.immunisations@nhs.net).

- If **you do not** want your child to receive a vaccine, may we ask that you still complete a consent form and select the 'No' box. If we do not hear from you, our team may try to contact you.

If you have any concerns or would like to withdraw your consent, please contact the Immunisation Team on the email address above.

### **Measles, Mumps, Rubella (MMR) Information**

By now your child should have had two doses of MMR to fully protect them from the diseases of MMR. If your child has NOT had two doses of MMR, and you would like them to be protected, please contact the Immunisation Team on the above email.

Information about MMR and answers to some common questions can be found at:

<https://www.gov.uk/government/publications/measles-dont-let-your-child-catch-it-flyer-for-schools>

Please visit [Surrey Child and Family Health Immunisations](#) for information about the school-based vaccination programme and to read our [Privacy Policy](#) . If you have any concerns or would like to withdraw your consent, please contact us on the above telephone number or email.

Yours faithfully

Clinical Service Manager

Surrey Immunisation Team
